Street, have probably furnished more houses with Carpets than any other house in the coun-try. In order to afford those at a distance the advantages of the rice, 20 yards or upwards on the receipt of the price, 20 yards or upwards of their beautiful Cottage Carpeting, at 50 cents per yard, with samples of ten sorts, varying in price from 25 cents to 83 per yard, suffable for jurnishing every part of any house. 4x243

#### LADIES IN POOR HEALTH.

ONE of the best medicines, probably the very best ever prescribed, for the numerous and distressing allments known as FEMALE COMPLAINTS, is Dodd's Nervine and Invigorator. Headache, Pain in the Back and Limbs, Palpitation of the Heart, Faintness, Loss of Appetite, Bearing-down Pain, Prostration of Strength. Retained, Excessive, Irregular or Painful Mensus all yield to its mage power. For Hysteria, Epilepsy, Me ancholy, Ac., it is all but infallible. It is also most valuable to ladies who are experiencing the change incident to advanced years. Then it is that constitutions maladies make their appearance, if any be inraining days. Dodd's Nervine and invigorator greatly assists nature at this important period, maintaining the vigor and tranquility of early life, and carrying them with ease and safety through:

## Important Certificate.

(Communicated by a Physician)

Seme months ago I was called to attend a tady of Williamsburgh, N. Y., who had long been suffering from troublesome uterine discase. Its presence was marked by constant vaginal discharge, sometimes of a watery consistency and sometimes creamy and muco-purulent. See his been under other treatment for some time, but constantly grew worse. Vaginal examination disclosed extensive induration and ulceration of disclosed extensive induration and inceration of the cervix uteri. The uterine inflamation, which was evidently assuming a chronic form, was also aggrevated by long-standing constipation, pal-pitation of the heart, night-sweats' cough, poor appetite, and aimost daily faintings. She fainted to entire insensibility during one of my first ed to entire insensibility during one of my first visits. I commenced, of course, by such active local treatment as the ulceration domanded, and then applied myself to a recuperation of the general health. It was inconvenient to see her trequently, and except to mark the healing of the ulcers, in the early stages, I v sited her only every other week. For tonic and constitutional invigorant Dodd's Nervine only was perscribed. I had some time before become acquainted with its properties, and anew of nothing more alinvigorant Dodd's Nervine only was persorabed. I had some time before become acquainted with its properties, and snew of nothing more safe or satisfactory in its probable effects. And the result completely justified my expectation. In a fortnight the bowels had become free and regular in their movements, the hight-sweats disappeared, and appetite began to grow. The fainting spelits became less frequent, and soon ceased altogether. In another fortnight there was no more cough, the vaginal discharge was sensibly diminishing, sleep was normal and refreshing, ond the general health de idedly improved. What remains is soon tool. The patient continued the use of the Nervine [and no other medicine] for some weeks longer, when my further attendance was not required. Since her recovery I have seen her but once. She seems perfectly well, Her joy over restored health is naturally enough most enthusiastic. She never before had a medicine give her such comfort—and such appetits—and such sleep—and such courage—and such atrength. She worldn't try to keep homes again without it, and so forth. It is my own opinion that the Nervine is the best tonic and corrective of the female organization that has ever come under my observation. I shall not fail to continue its use in all similar cases, and the profession know they are numerous chough.

For sale by all Druggists. Price, \$1. ion know they are numerous enough.

GREAT IMPROVEMENT IN DENTIS-

The attention of the public is called to a great iscovery in Dentistry.

THE GREATEST ADVANCE STEP EVER MADE IN THE ART.
The main difficulty in wearing artificial teeth is, bey do not hold in their place firmly enough, and add to this the samoyance of food getting order the plate while eating. I have discovered a method of so constructing the plate or which the teeth are set that they will not start or drop while eating or speaking, neither will my particles of food got under the plate, no matter what the condition of the mouth is.

natter what the condition of the mouth is, chich is not true of any method hithertoused. I have secured Letters Parent for the United

I have secured Letters Parent for the United states, England and France,
The improvement is not in material, but in the construction, whichs courses the atmospheric pressure on the entire plate.

I have sold the exclusive of said improvement to Dr. L. Gliman, to wit, the Counties of Frankin, Washington, Chittenden, Lamedlie and Grand Isle. Those wishing to avail themselves of such improvement, will call on
